

The Mission

We believe that your current pay, benefits, and working conditions can only be preserved by joining together and developing a series of strategic plans to educate the public about why it is in their best interest to have well trained and well paid officers with a secure health care and retirement plan providing for their safety. Our goal is to create a worldwide network of law enforcement people through the online community of PubSecAlliance who we can mobilize instantly to share information, offer support and apply political pressure when needed.
